DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/17/08 has been entered.

Election/Restrictions

2. Claims 1,17,23 and 27-36 are pending in the application. Claims 27-36 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention and there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/28/06.

Response to Arguments

3. Applicant's arguments with respect to claims 1,17,19 and 23 have been considered but are moot in view of the new ground(s) of rejection.

New Grounds of Rejection Necessitated by the Amendment

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1,17,19 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Tomita et al. JP06122696 (see abstract; figure p9).

6. Tomita et al. JP06122696 teaches of the structure below which comprises a 2,3,3-trimethyl indolenine substituted with a saccharide where the saccharide encompasses the Y₁= saccharide of the instant claims.

7.

Conclusion
